

# KENDRICK THOMAS

## BIO

---

Texas

Born in Shreveport, La to a single mother at the age of 15, Kendrick faced violence, murder, drugs, and gangs daily. With all this going on around him, Kendrick knew that he would need to find the intrinsic motivation within himself to one day leave Shreveport and do great things for the world he lived in.

Fast forward to 2019, Kendrick is not only a school administrator in Houston Texas, but a certified life coach, speaker, and mentor. He leads the G.R.E.A.T. Boys Club in Alief ISD and works countless hours speaking with young At-Risk youth, leaders on his campus, in his district and throughout the city of Houston. Kendrick's passion is showing young people that through intrinsic motivation there is a way out of every situation you're placed in.

Through the Daily K podcast, reaching thousands weekly, Kendrick speaks to school leaders, community members and entrepreneurs about informing and giving back to the community. The skills and connect-ability that Kendrick brings to any event is what makes him one of the most sought after speakers in education and advocacy in the city of Houston.
